JACK

BACK TO MACHINE LEARNING

If you know the passengers list:

- Gender
- Age
- Ticket class
- Does he survived ?

You can create a Decision Tree ...

... for this Supervised Problem !

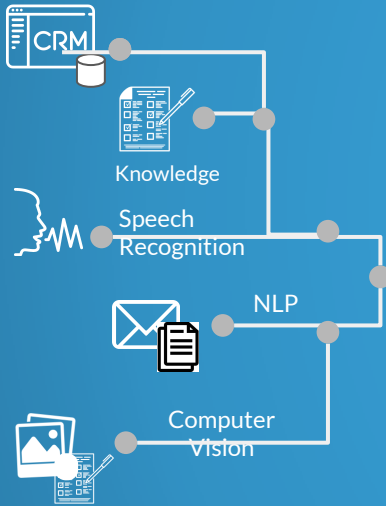

REAL LIFE IS DIFFERENT...

**KEEP COOL AND USE
MACHINE LEARNING**

**Do you speak
Data**

DATA LANGUAGE

Dataset

NAME	AGE	CLASS	DIED ?
John	23	3	Yes
Marry	31	1	No
Henry	23	2	Yes
Nicolas	41	1	No
Anna	18	3	Yes

DATA LANGUAGE

Feature

NAME	AGE	CLASS	DIED ?
John	23	3	Yes
Marry	31	1	No
Henry	23	2	Yes
Nicolas	41	1	No
Anna	18	3	Yes

DATA LANGUAGE

Target

NAME	AGE	CLASS	DIED ?
John	23	3	Yes
Marry	31	1	No
Henry	23	2	Yes
Nicolas	41	1	No
Anna	18	3	Yes

DATA LANGUAGE

NAME	AGE	CLASS	DIED ?
John	23	3	Yes
Marry	31	1	No
Henry	23	2	Yes
Nicolas	41	1	No
Anna	18	3	Yes

Sample

A close-up photograph of Arnold Schwarzenegger. He is wearing a dark, possibly black, jacket. His eyes are closed, and he has a neutral, somewhat somber expression. The background is a bright, clear blue sky. At the bottom of the image, there is a black rectangular box containing the text "DEMO TIME!" in white, bold, sans-serif capital letters.
